JUNAID KHAN

WEB DEVELOPER

PROFILE SUMMARY

A passionate and self-motivated Web Developer and Software Developer with over 1 year of experience of building and maintaining dynamic, user-friendly websites and applications. Proficient in React.js, MERN Stack, PHP, jQuery, and other modern technologies. Skilled in creating efficient and scalable solutions with a strong focus on user experience and functionality. Eager to bring expertise to a collaborative team and contribute to innovative projects in a forward-thinking organization.

WORK EXPERIENCE

- Gaps Technologies** DEC-2023- NOV-2024
Software development Company
 - Designed and implemented responsive websites and web applications using React.js and PHP, enhancing user engagement by up to 30%.
 - Built full-stack applications with the MERN stack, integrating CRUD functionalities and RESTful APIs.
 - Optimized database queries in MongoDB and MySQL for faster data retrieval and improved performance.
 - Debugged and resolved cross-browser compatibility issues in web applications.
 - Collaborated with UI/UX designers and project managers to align technical requirements with user expectations.
- Adiyogi Technosoft** DEC-2024- MARCH-2025
Ad Listing Platform (MERN Stack)
 - Created a full-stack Listing platform with Next Js, Express, and MongoDB for managing products, orders, and payments. Integrated Stripe for secure transactions and JWT for authentication. Implemented admin functionality for managing inventory.

PROJECTS

E-Commerce Store (MERN Stack)

- Created a full-stack e-commerce platform with React, Express, and MongoDB for managing products, orders, and payments.
 - Integrated Stripe for secure transactions and JWT for authentication.
 - Implemented admin functionality for managing inventory.
- Developed a CMS-based blogging platform with user registration, content management
- Utilized jQuery for dynamic interactions and AJAX for smooth page updates.

AdPostMan (MERN Stack – Next.js, Node.js, Express, A feature-rich listing platform built with the MERN stack, based on a 50+ page Figma design.

- Developed the frontend in Next.js with responsive and dynamic UI components.
- Contributed to the backend using Node.js and Express, implementing core functionalities like user authentication and listing management.
- Integrated REST APIs and optimized performance for smoother navigation across multiple pages.
- Collaborated with the design team to translate complex UI/UX into production-ready code.

Aurum Reality Nivesh (Next.js, React)

A modern, UI-intensive real estate platform designed to streamline property exploration for clients.

- Built frontend components using Next.js and React, ensuring pixel-perfect alignment with the provided UI designs.
- Implemented responsive layouts, animations, and interactive property listing features.
- Focused on improving user experience with fast-loading pages and intuitive navigation.
- Assisted the backend team in integrating property search APIs and data handling logic.

Sagrada Madre (Laravel, PHP, MySQL)

An e-commerce website specializing in natural incense and wellness products.

- Assisted senior developers in building product listing, cart, and checkout functionalities.
- Handled payment gateway integration on the backend, ensuring secure transaction processing.
- Worked on backend improvements in Laravel, optimizing database queries for better performance.
- Collaborated in debugging and feature enhancements during the development cycle.

Store Management Software (Laravel, Livewire)

A custom ERP solution built for a Jodhpur handicraft client to manage day-to-day operations.

- Assisted senior developers in creating the application, contributing to both backend and frontend tasks.
- Implemented role-based authentication for secure access control.
- Worked on modules for product inventory, client management, and bank ledger tracking.
- Added features for due payments tracking, sales reporting, and invoice generation.
- Helped design a Livewire-powered frontend for fast, real-time updates without page reloads.
- Contributed to a user-friendly dashboard offering quick insights into business performance.
